Subject Index

Volume 39, January–June 2002

A

ACE gene
Renin-Angiotensin System Genetic Polymorphisms and Cerebral White Matter Lesions in Essential Hypertension, 343

ACE inhibitor
Perindopril Alters Vascular Angiotensin-Converting Enzyme, AT_1 Receptor, and Nitric Oxide Synthase Expression in Patients With Coronary Heart Disease, 634

Acetylcholine
Excess Norepinephrine Impairs Both Endothelium-Dependent and -Independent Vasodilation in Patients With Pheochromocytoma, 513

Activation analysis
Activation of Leukocytes During the Uteroplacental Passage in Preeclampsia, 155

Adeno-associated virus
Vigilant Vector: Heart-Specific Promoter in an Adeno-Associated Virus Vector for Cardioprotection, 651

Adenosine
A_{2B} Adenosine Receptors Stimulate Growth of Porcine and Rat Arterial Endothelial Cells, 530

Adipose tissue
Sympathetic Activation in Adipose Tissue and Skeletal Muscle of Hypertensive Rats, 656

Adrenal gland
Diagnostic Value of the Post-Captopril Test in Primary Aldosteronism, 935
Novel Receptors for Ouabain: Studies in Adrenocortical Cells and Membranes, 536

Adrenergic receptor agonists
Expression of Human Angiotensinogen-Renin in Rat: Effects on Transcription and Heart Function, 219

Adrenomedullin
Combined Endopeptidase Inhibition and Adrenomedullin in Sheep With Experimental Heart Failure, 93
Inflammatory Cytokines Stimulate Adrenomedullin Expression Through Nitric Oxide-Dependent and -Independent Pathways, 161
Renoprotective Effect of Chronic Adrenomedullin Infusion in Dahl Salt-Sensitive Rats, 1077

Age
Correlates of Left Atrial Size in Hypertensive Patients With Left Ventricular Hypertrophy: The Losartan Intervention For Endpoint Reduction in Hypertension (LIFE) Study, 739

Aging
Altered Regulation of Matrix Metalloproteinase-2 in Aortic Remodeling During Aging, 865
In Vivo *klotho* Gene Transfer Ameliorates Angiotensin II-Induced Renal Damage, 838

AHA council proceedings
Proceedings of the Council for High Blood Pressure Research, 2001, 309

Albumin
Vascular Smooth Muscle Cell Activation by Glycated Albumin (Amadori Adducts), 22

Albuminuria
Albuminuria in Hypertension Is Linked to Altered Lysosomal Activity and TGF-β1 Expression, 281
Factors Related to the Occurrence of Microalbuminuria During Antihypertensive Treatment in Essential Hypertension, 794
Lipocalin-Type Prostaglandin D Synthase in Essential Hypertension, 449
Urinary Protein and Essential Hypertension in Black and in White People, 1064

Alcohol
Eight-Year Blood Pressure Change in Middle-Aged Men: Relationship to Multiple Nutrients, 1000
Socioeconomic Inequalities in Hypertension Prevalence and Care: The IHPAF Study, 1119

Aldosterone
Aldosterone and D-Glucose Stimulate the Proliferation of Human Cardiac Myofibroblasts In Vitro, 756
Aldosterone Is Produced From Ventricles in Patients With Essential Hypertension, 958
Angiotensin II Suppression in Humans by the Orally Active Renin Inhibitor Aliskiren (SPP100): Comparison With Enalapril, 189
Cardiac Damage Prevention by Eplerenone: Comparison With Low Sodium Diet or Potassium Loading, 614
The Y Chromosome Effect on Blood Pressure in Two European Populations, 353
Upregulation of Arterial Serotonin 1B and 2B Receptors in Deoxycorticosterone Acetate-Salt Hypertension, 394

Amino acid
Cationic Amino Acid Transport in the Renal Medulla and Blood Pressure Regulation, 287

Amlodipine
Stimulation of Cardiac Apoptosis in Essential Hypertension: Potential Role of Angiotensin II, 75

Angiogenesis
Endothelial Nitric Oxide Synthase Lies Downstream From Angiotensin II-Induced Angiogenesis in Ischemic Hindlimb, 830

Angiotensin
Important Role of Rho-kinase in the Pathogenesis of Cardiovascular Inflammation and Remodeling Induced by Long-Term Blockade of Nitric Oxide Synthesis in Rats, 245
Intracellular Angiotensin II Stimulates Voltage-Operated Ca^{2+} Channels in Arterial Myocytes, 474
Regulation and Localization of HSP70 and HSP25 in the Kidney of Rats Undergoing Long-Term Administration of Angiotensin II, 122
Sustained Activation of the Central Baroreceptor Pathway in Angiotensin Hypertension, 550
Vasodilator Action of Angiotensin-(1-7) on Isolated Rabbit Afferent Arterioles, 799

Angiotensin antagonist
Angiotensin II Type 2 Receptor Counter-Regulates Type 1 Receptor in Catecholamine Synthesis in Cultured Porcine Adrenal Medullary Chromaffin Cells, 142

Angiotensin I
Angiotensinogen and Its Cleaved Derivatives Inhibit Angiogenesis, 224
Expression of Human Angiotensinogen-Renin in Rat: Effects on Transcription and Heart Function, 219
Renal Interstitial Fluid Concentrations of Angiotensins I and II in Anesthetized Rats, 129

Angiotensin II
Altered Nitric Oxide Synthase 3 Distribution in Mesenteric Arteries of Hypertensive Rats, 597
Ang II Accumulation in Rat Renal Endosomes During Ang II-Induced Hypertension: Role of AT_1 Receptor, 116
Angiotensin II and Catecholamines Increase Plasma Levels of 8-Epi-Prostaglandin $F_{2\alpha}$ With Different Pressor Dependencies in Rats, 149
Angiotensin II Suppression in Humans by the Orally Active Renin Inhibitor Aliskiren (SPP100): Comparison With Enalapril, 189
Angiotensin II Type 2 Receptor Gene Transfer Downregulates Angiotensin II Type 1a Receptor in Vascular Smooth Muscle Cells, 1021
Chronotropic Action of Angiotensin II in Neurons via Protein Kinase C and CaMKII, 562
Downregulation of Neuronal Nitric Oxide Synthase and Interleukin-1β Mediates Angiotensin II-Dependent Stimulation of Sympathetic Nerve Activity, 519
Endothelial Nitric Oxide Synthase Lies Downstream From Angiotensin II-Induced Angiogenesis in Ischemic Hindlimb, 830
Estrogen Activates Phosphatases and Antagonizes Growth-Promoting Effect of Angiotensin II, 41

Functional Significance of Activation of Calcium/Calmodulin-Dependent Protein Kinase II in Angiotensin II-Induced Vascular Hyperplasia and Hypertension, 704
In Vivo *klotho* Gene Transfer Ameliorates Angiotensin II-Induced Renal Damage, 838
Increased Angiotensin II-Mediated Src Signaling via Epidermal Growth Factor Receptor Transactivation Is Associated With Decreased C-Terminal Src Kinase Activity in Vascular Smooth Muscle Cells From Spontaneously Hypertensive Rats, 479
Lacidipine Inhibits Adhesion Molecule and Oxidase Expression Independent of Blood Pressure Reduction in Angiotensin-Induced Vascular Injury, 685
Perindopril Alters Vascular Angiotensin-Converting Enzyme, AT_1 Receptor, and Nitric Oxide Synthase Expression in Patients With Coronary Heart Disease, 634
Posttranscriptional Control of BNP Gene Expression in Angiotensin II-Induced Hypertension, 803
Preproendothelin-1 Gene Polymorphism Is Related to a Change in Vascular Reactivity in the Human Mammary Artery In Vitro, 209
Reduced Reactivity of Renal Microvessels to Pressure and Angiotensin II in Fawn-Hooded Rats, 111
Renal Hemodynamic Control by Endothelin and Nitric Oxide Under Angiotensin II Blockade in Man, 715
Renal Interstitial Fluid Concentrations of Angiotensins I and II in Anesthetized Rats, 129
Stimulation of Cardiac Apoptosis in Essential Hypertension: Potential Role of Angiotensin II, 75
Targeted Proteomic Profiling of Renal Na^+ Transporter and Channel Abundances in Angiotensin II Type 1a Receptor Knockout Mice, 470
Tonin and Kallikrein in the Brain of Transgenic Rat Line Expressing Human Tissue Kallikrein, 229

Angiotensin II type 1 receptor gene
Renin-Angiotensin System Genetic Polymorphisms and Cerebral White Matter Lesions in Essential Hypertension, 343

Angiotensin-converting enzyme
Aldosterone Is Produced From Ventricles in Patients With Essential Hypertension, 958
Angiotensin 1-9 and 1-7 Release in Human Heart: Role of Cathepsin A, 976
Angiotensin II Suppression in Humans by the Orally Active Renin Inhibitor Aliskiren (SPP100): Comparison With Enalapril, 189
Blood Pressure and NaCl-Sensitive Hypertension Are Influenced by Angiotensin-Converting Enzyme Gene Expression in Transgenic Mice, 214
Bradykinin Improves Left Ventricular Diastolic Function Under Long-Term Angiotensin-Converting Enzyme Inhibition in Heart Failure, 952
Intracellular Angiotensin II Stimulates Voltage-Operated Ca^{2+} Channels in Arterial Myocytes, 474
Neprilysin Inhibitors Potentiate Effects of Bradykinin on B2 Receptor, 619
Perindopril Alters Vascular Angiotensin-Converting Enzyme, AT_1 Receptor, and Nitric Oxide Synthase Expression in Patients With Coronary Heart Disease, 634

Angiotensin-converting enzyme inhibitors
Associations Between Birth Weight and Antihypertensive Medication in Black and White Medicaid Recipients, 179
Bradykinin Enhances Sympathetic Neurotransmission in Rat Blood Vessels, 29
Dipeptidyl Peptidase IV Activity in Patients With ACE-Inhibitor-Associated Angioedema, 460
Effect of ACE Inhibitors and Angiotensin II Type 1 Receptor Antagonists on Endothelial NO Synthase Knockout Mice With Heart Failure, 375
Effects of Celecoxib on Ambulatory Blood Pressure in Hypertensive Patients on ACE Inhibitors, 929
Renal Interstitial Fluid Concentrations of Angiotensins I and II in Anesthetized Rats, 129

Angiotensinogen
Angiotensinogen and Its Cleaved Derivatives Inhibit Angiogenesis, 224
Effects of Dietary Sodium and Genetic Background on Angiotensinogen and Renin in Mouse, 1007
Regulation of Intrarenal Angiotensin II in Hypertension, 316

Angiotensinogen gene
Renin-Angiotensin System Genetic Polymorphisms and Cerebral White Matter Lesions in Essential Hypertension, 343

Anions
In Vivo Evidence for Antioxidant Potential of Estrogen in Microvessels of Female Spontaneously Hypertensive Rats, 405

Antihypertensive agents
Associations Between Birth Weight and Antihypertensive Medication in Black and White Medicaid Recipients, 179
Effects of Celecoxib on Ambulatory Blood Pressure in Hypertensive Patients on ACE Inhibitors, 929

Antihypertensive therapy
Factors Related to the Occurrence of Microalbuminuria During Antihypertensive Treatment in Essential Hypertension, 794

Antinatriuresis
Nitric Oxide Modulation of Neurally Induced Proximal Tubular Fluid Reabsorption in the Rat, 790

Antioxidants
Native LDL Induces Proliferation of Human Vascular Smooth Muscle Cells via Redox-Mediated Activation of ERK 1/2 Mitogen-Activated Protein Kinases, 645

Antisense elements
Blood Pressure-Independent Attenuation of Cardiac Hypertrophy by AT_1R-AS Gene Therapy, 969
Thyrotropin-Releasing Hormone Decreases Leptin and Mediates the Leptin-Induced Pressor Effect, 491

Aorta
Altered Regulation of Matrix Metalloproteinase-2 in Aortic Remodeling During Aging, 865
Central Pulse Pressure and Mortality in End-Stage Renal Disease, 735
Insulin Inhibits Acetylcholine Responses in Rat Isolated Mesenteric Arteries via a Non-Nitric Oxide Nonprostanoid Pathway, 35
Vessel-Specific Stimulation of Protein Synthesis by Nitric Oxide Synthase Inhibition: Role of Extracellular Signal-Regulated Kinases 1/2, 16

Apoptosis
Fibrosis, Matrix Metalloproteinases, and Inflammation in the Heart of DOCA-Salt Hypertensive Rats: Role of ET_A Receptors, 679
Gene Transfer of cGMP-Dependent Protein Kinase I Enhances the Antihypertrophic Effects of Nitric Oxide in Cardiomyocytes, 87
Stimulation of Cardiac Apoptosis in Essential Hypertension: Potential Role of Angiotensin II, 75

Arachidonic acids
Neprilysin Inhibitors Potentiate Effects of Bradykinin on B2 Receptor, 619

Arginine
Altered Nitric Oxide Synthase 3 Distribution in Mesenteric Arteries of Hypertensive Rats, 597

L-Arginine
L-Arginine Augments Cardiac Vagal Control in Healthy Human Subjects, 51

Arrhythmia
Sympathetic Response to Ventricular Extrasystolic Beats in Hypertension and Heart Failure, 886

Arterial pressure
Blood Pressure and NaCl-Sensitive Hypertension Are Influenced by Angiotensin-Converting Enzyme Gene Expression in Transgenic Mice, 214
Cationic Amino Acid Transport in the Renal Medulla and Blood Pressure Regulation, 287
Gender Differences in Vascular Smooth Muscle Reactivity to Increases in Extracellular Sodium Salt, 425
Low-Salt Diet Enhances Vascular Reactivity and Ca^{2+} Entry in Pregnant Rats With Normal and Reduced Uterine Perfusion Pressure, 368

Arterial stiffness
Aortic Stiffness Is an Independent Predictor of Primary Coronary Events in Hypertensive Patients: A Longitudinal Study, 10

Arteries
Heart Rate: An Important Confounder of Pulse Wave Velocity Assessment, 1083
Oxidative Stress in Leukocytes Is a Possible Link Between Blood Pressure, Blood Glucose, and C-Reacting Protein, 777
Src Autophosphorylation is an Early Event in Pressure-Mediated Signaling Pathways in Isolated Resistance Arteries, 502

Upregulation of Arterial Serotonin 1B and 2B Receptors in Deoxycorticosterone Acetate-Salt Hypertension, 394
Vessel-Specific Stimulation of Protein Synthesis by Nitric Oxide Synthase Inhibition: Role of Extracellular Signal-Regulated Kinases 1/2, 16

Arterioles
Mechanism by Which Superoxide Potentiates Tubuloglomerular Feedback, 624
Nitric Oxide Produced by THAL Nitric Oxide Synthase Inhibits TGF, 662
Vasodilator Action of Angiotensin-(1-7) on Isolated Rabbit Afferent Arterioles, 799

Arteriosclerosis
Coexistence of Hypercholesterolemia and Hypertension Impairs Adventitial Vascularization, 455
Important Role of Rho-kinase in the Pathogenesis of Cardiovascular Inflammation and Remodeling Induced by Long-Term Blockade of Nitric Oxide Synthesis in Rats, 245

Aspirin
Nitric Oxide, Anti-Inflammatory Drugs on Renal Prostaglandins and Cyclooxygenase-2, 785

AT_1 receptor
Ang II Accumulation in Rat Renal Endosomes During Ang II-Induced Hypertension: Role of AT_1 Receptor, 116
Angiotensin II and Catecholamines Increase Plasma Levels of 8-Epi-Prostaglandin $F_{2\alpha}$ With Different Pressor Dependencies in Rats, 149
Regulation and Localization of HSP70 and HSP25 in the Kidney of Rats Undergoing Long-Term Administration of Angiotensin II, 122

Atherosclerosis
Heart Rate: An Important Confounder of Pulse Wave Velocity Assessment, 1083
Native LDL Induces Proliferation of Human Vascular Smooth Muscle Cells via Redox-Mediated Activation of ERK 1/2 Mitogen-Activated Protein Kinases, 645
Perindopril Alters Vascular Angiotensin-Converting Enzyme, AT_1 Receptor, and Nitric Oxide Synthase Expression in Patients With Coronary Heart Disease, 634
Pressure Promotes Angiotensin II-Mediated Migration of Human Coronary Smooth Muscle Cells Through Increase in Oxidative Stress, 433
Relationship Between Muscle Sympathetic Nerve Activity and Diurnal Blood Pressure Profile, 168
Signaling Mechanisms of Heparin-Binding Epidermal Growth Factor-Like Growth Factor in Vascular Smooth Muscle Cells, 525

Autonomic nervous system
L-Arginine Augments Cardiac Vagal Control in Healthy Human Subjects, 51
Hemodynamic and Autonomic Adjustments to Real Life Stress Conditions in Humans, 184
Increased Sympathetic Activation in Idiopathic Orthostatic Intolerance: Role of Systemic Adrenoreceptor Sensitivity, 173

B

Baroreceptors
Hemodynamic and Autonomic Adjustments to Real Life Stress Conditions in Humans, 184

Baroreflex
L-Arginine Augments Cardiac Vagal Control in Healthy Human Subjects, 51
Sustained Activation of the Central Baroreceptor Pathway in Angiotensin Hypertension, 550
Sympathetic Response to Ventricular Extrasystolic Beats in Hypertension and Heart Failure, 886

Behavior
Heart Rate and Blood Pressure Quantitative Trait Loci for the Airpuff Startle Reaction, 348

Blood flow
Effect of Endothelin Blockade on Basal and Stimulated Forearm Blood Flow in Patients With Essential Hypertension, 821
Effects of Mild Exercise on Insulin Sensitivity in Hypertensive Subjects, 989

Blood pressure
Aldosterone Is Produced From Ventricles in Patients With Essential Hypertension, 958
Alteration of Plasma Ghrelin Levels Associated With the Blood Pressure in Pregnancy, 781
Angiotensin II Suppression in Humans by the Orally Active Renin Inhibitor Aliskiren (SPP100): Comparison With Enalapril, 189
Association Between Pulse Pressure and C-Reactive Protein Among Apparently Healthy US Adults, 197
Blood Pressure Response to Heart Rate During Exercise Test and Risk of Future Hypertension, 761
Blood Pressure Variability and Organ Damage in a General Population: Results from the PAMELA Study, 710
Central Pulse Pressure and Mortality in End-Stage Renal Disease, 735
Chronic Cardiovascular and Renal Actions of Leptin: Role of Adrenergic Activity, 496
Development of Predictive Models for Long-Term Cardiovascular Risk Associated With Systolic and Diastolic Blood Pressure, 105
Discovery of a Spontaneous Genetic Mouse Model of Preeclampsia, 337
Eight-Year Blood Pressure Change in Middle-Aged Men: Relationship to Multiple Nutrients, 1000
Exaggerated Hypotensive Effect of Vascular Endothelial Growth Factor in Spontaneously Hypertensive Rats, 815
Gender Differences in the Dietary Lard-Induced Increase in Blood Pressure in Rats, 1015
Heart Rate and Blood Pressure Quantitative Trait Loci for the Airpuff Startle Reaction, 348
Impaired Stress-Induced Pressure Natriuresis Is Related to Left Ventricle Structure in Blacks, 844
Implications of Hyperhomocysteinemia in Glomerular Sclerosis in Hypertension, 443
Increased Renal Medullary Oxidative Stress Produces Hypertension, 667
Inhibition of the Hypothalamic Paraventricular Nucleus in Spontaneously Hypertensive Rats Dramatically Reduces Sympathetic Vasomotor Tone, 275
KDR (VEGF Receptor 2) Is the Major Mediator for the Hypotensive Effect of VEGF, 1095
Lipocalin-Type Prostaglandin D Synthase in Essential Hypertension, 449
Multi-Center Genetic Study of Hypertension: The Family Blood Pressure Program (FBPP), 3
Phorbol Diacetate Potentiates Na^+-K^+ ATPase Inhibition by a Putative Endogenous Ligand, Marinobufagenin, 298
Physiological Genomics: Implications In Hypertension Research, 310
Plasma $ProANP_{1-30}$ Reflects Salt Sensitivity in Subjects With Heredity for Hypertension, 996
Posttranscriptional Control of BNP Gene Expression in Angiotensin II-Induced Hypertension, 803
Prevalence of Left Ventricular Hypertrophy in Hypertensive Patients Without and With Blood Pressure Control: Data From the PAMELA Population, 744
Socioeconomic Inequalities in Hypertension Prevalence and Care: The IHPAF Study, 1119
Substance P in Subtotal Nephrectomy-Salt Hypertension, 389
The T-786→C Mutation in Endothelial Nitric Oxide Synthase Is Associated With Hypertension, 919
The Y Chromosome Effect on Blood Pressure in Two European Populations, 353
Thyrotropin-Releasing Hormone Decreases Leptin and Mediates the Leptin-Induced Pressor Effect, 491

Blood pressure determination
Blood Pressure Variability and Organ Damage in a General Population: Results from the PAMELA Study, 710
KDR (VEGF Receptor 2) Is the Major Mediator for the Hypotensive Effect of VEGF, 1095

Blood pressure monitoring, ambulatory
Ambulatory Blood Pressure and Left Ventricular Mass Index in Hypertensive Children, 903
Ambulatory Blood Pressure in 12-Year-Old Children Born Small for Gestational Age, 909
Blood Pressure Variability and Organ Damage in a General Population: Results from the PAMELA Study, 710

Blood vessels
Preproendothelin-1 Gene Polymorphism Is Related to a Change in Vascular Reactivity in the Human Mammary Artery In Vitro, 209
Body mass index
Ambulatory Blood Pressure in 12-Year-Old Children Born Small for Gestational Age, 909
Correlates of Left Atrial Size in Hypertensive Patients With Left Ventricular Hypertrophy: The Losartan Intervention For Endpoint Reduction in Hypertension (LIFE) Study, 739
Socioeconomic Inequalities in Hypertension Prevalence and Care: The IHPAF Study, 1119
Body weight
Eight-Year Blood Pressure Change in Middle-Aged Men: Relationship to Multiple Nutrients, 1000
Book Reviews
Primer of Biostatistics, 5th ed, e25
Bradycardia
Heart Rate and Blood Pressure Quantitative Trait Loci for the Airpuff Startle Reaction, 348
Bradykinin
Angiotensin II Type 2 Receptor Gene Transfer Downregulates Angiotensin II Type 1a Receptor in Vascular Smooth Muscle Cells, 1021
Bradykinin Enhances Sympathetic Neurotransmission in Rat Blood Vessels, 29
Bradykinin Improves Left Ventricular Diastolic Function Under Long-Term Angiotensin-Converting Enzyme Inhibition in Heart Failure, 952
Dipeptidyl Peptidase IV Activity in Patients With ACE-Inhibitor-Associated Angioedema, 460
Smoking Impairs Bradykinin-Stimulated t-PA Release, 767
Brain
Brain Amiloride-Sensitive Phe-Met-Arg-Phe-NH_2-Gated Na^+ Channels and Na^+-Induced Sympathoexcitation and Hypertension, 557
Cardiovascular Effects of Overexpression of Endothelial Nitric Oxide Synthase in the Rostral Ventrolateral Medulla in Stroke-Prone Spontaneously Hypertensive Rats, 264
Obligatory Role of Protein Kinase Cβ and MARCKS in Vesicular Trafficking in Living Neurons, 567
Selective Gene Transfer to Key Cardiovascular Regions of the Brain: Comparison of Two Viral Vector Systems, 603
Sustained Activation of the Central Baroreceptor Pathway in Angiotensin Hypertension, 550
Tonin and Kallikrein in the Brain of Transgenic Rat Line Expressing Human Tissue Kallikrein, 229
Bufanolides
Phorbol Diacetate Potentiates Na^+-K^+ ATPase Inhibition by a Putative Endogenous Ligand, Marinobufagenin, 298

C

C-Jun
Dominant Negative Mutant of c-Jun Inhibits Cardiomyocyte Hypertrophy Induced by Endothelin 1 and Phenylephrine, 81
Ca^{2+}-transponding ATPase
Bradykinin Improves Left Ventricular Diastolic Function Under Long-Term Angiotensin-Converting Enzyme Inhibition in Heart Failure, 952
Calcium
CB_1 Receptor Antagonist SR141716A Inhibits Ca^{2+}-Induced Relaxation in CB_1 Receptor-Deficient Mice, 251
Endothelin-1-Induced Enhancement of Coronary Smooth Muscle Contraction via MAPK-Dependent and MAPK-Independent $[Ca^{2+}]_i$ Sensitization Pathways, 543
Gender Differences in Vascular Smooth Muscle Reactivity to Increases in Extracellular Sodium Salt, 425
Low-Salt Diet Enhances Vascular Reactivity and Ca^{2+} Entry in Pregnant Rats With Normal and Reduced Uterine Perfusion Pressure, 368
Neprilysin Inhibitors Potentiate Effects of Bradykinin on B2 Receptor, 619
Vasopressin Increases Intracellular NO Concentration via Ca^{2+} Signaling in Inner Medullary Collecting Duct, 465
Calcium antagonists
Effects of Chronic Calcium Channel Blockade on Sympathetic Nerve Activity in Hypertension, 892
Lacidipine Inhibits Adhesion Molecule and Oxidase Expression Independent of Blood Pressure Reduction in Angiotensin-Induced Vascular Injury, 685
Calcium channels
Associations Between Birth Weight and Antihypertensive Medication in Black and White Medicaid Recipients, 179
Intracellular Angiotensin II Stimulates Voltage-Operated Ca^{2+} Channels in Arterial Myocytes, 474
Captopril
Diagnostic Value of the Post-Captopril Test in Primary Aldosteronism, 935
Cardiac function

Prevention of Hypertension, Insulin Resistance, and Oxidative Stress by α-Lipoic Acid, 303
Integrins
Integrins Play a Critical Role in Mechanical Stress-Induced p38 MAPK Activation, 233
Interleukins
Downregulation of Neuronal Nitric Oxide Synthase and Interleukin-1β Mediates Angiotensin II-Dependent Stimulation of Sympathetic Nerve Activity, 519
Losartan Reduces Central and Peripheral Sympathetic Nerve Activity in a Rat Model of Neurogenic Hypertension, 1101
Ion transport
Low-Renin Hypertension, Altered Sodium Homeostasis, and an α-Adducin Polymorphism, 191
Ischemia
Emerging Excitatory Role of Cardiovascular Sympathetic Afferents in Pathophysiological Conditions, 63
Endothelial Nitric Oxide Synthase Lies Downstream From Angiotensin II-Induced Angiogenesis in Ischemic Hindlimb, 830
Vigilant Vector: Heart-Specific Promoter in an Adeno-Associated Virus Vector for Cardioprotection, 651
Isoprostanes
Angiotensin II and Catecholamines Increase Plasma Levels of 8-Epi-Prostaglandin $F_{2\alpha}$ With Different Pressor Dependencies in Rats, 149

J

Juxtaglomerular apparatus
Epithelial COX-2 Expression Is Not Regulated By Nitric Oxide in Rodent Renal Cortex, 848

K

Kallikrein
Tonin and Kallikrein in the Brain of Transgenic Rat Line Expressing Human Tissue Kallikrein, 229
Kidney
Ang II Accumulation in Rat Renal Endosomes During Ang II-Induced Hypertension: Role of AT_1 Receptor, 116
Cardiac and Renal Effects of Growth Hormone in Volume Overload-Induced Heart Failure: Role of NO, 57
Cationic Amino Acid Transport in the Renal Medulla and Blood Pressure Regulation, 287
Chronic Cardiovascular and Renal Actions of Leptin: Role of Adrenergic Activity, 496
Fetal Uninephrectomy Leads to Postnatal Hypertension and Compromised Renal Function, 1071
Inducible Nitric Oxide Synthase Inhibition Attenuates Renal Hemodynamics During Pregnancy, 586
Nitric Oxide Modulation of Neurally Induced Proximal Tubular Fluid Reabsorption in the Rat, 790

Nitric Oxide, Anti-Inflammatory Drugs on Renal Prostaglandins and Cyclooxygenase-2, 785
Regulation and Localization of HSP70 and HSP25 in the Kidney of Rats Undergoing Long-Term Administration of Angiotensin II, 122
Renal Hemodynamic Control by Endothelin and Nitric Oxide Under Angiotensin II Blockade in Man, 715
Renal Interstitial Fluid Concentrations of Angiotensins I and II in Anesthetized Rats, 129
Soluble Epoxide Hydrolase Inhibition Lowers Arterial Blood Pressure in Angiotensin II Hypertension, 690
Targeted Proteomic Profiling of Renal Na^+ Transporter and Channel Abundances in Angiotensin II Type 1a Receptor Knockout Mice, 470
Vasopressin Increases Intracellular NO Concentration via Ca^{2+} Signaling in Inner Medullary Collecting Duct, 465

Kinase
Abrogated Leptin-Induced Cardiac Contractile Response in Ventricular Myocytes Under Spontaneous Hypertension: Role of JAK/STAT Pathway, 69
Functional Significance of Activation of Calcium/Calmodulin-Dependent Protein Kinase II in Angiotensin II-Induced Vascular Hyperplasia and Hypertension, 704
Increased Angiotensin II-Mediated Src Signaling via Epidermal Growth Factor Receptor Transactivation Is Associated With Decreased C-Terminal Src Kinase Activity in Vascular Smooth Muscle Cells From Spontaneously Hypertensive Rats, 479
Myocyte Redistribution of GRK2 and GRK5 in Hypertensive, Heart-Failure-Prone Rats, 1058
Native LDL Induces Proliferation of Human Vascular Smooth Muscle Cells via Redox-Mediated Activation of ERK 1/2 Mitogen-Activated Protein Kinases, 645
Nitric Oxide Induces Dilation of Rat Aorta via Inhibition of Rho-Kinase Signaling, 438
Proprotein Convertase PC5 Regulation by PDGF-BB Involves PI3-Kinase/$p70^{s6}$-Kinase Activation in Vascular Smooth Muscle Cells, 399
Src Autophosphorylation is an Early Event in Pressure-Mediated Signaling Pathways in Isolated Resistance Arteries, 502
Vessel-Specific Stimulation of Protein Synthesis by Nitric Oxide Synthase Inhibition: Role of Extracellular Signal-Regulated Kinases 1/2, 16

L

L-NAME
Renal Hemodynamic Control by Endothelin and Nitric Oxide Under Angiotensin II Blockade in Man, 715

Left atrial size
Correlates of Left Atrial Size in Hypertensive Patients With Left Ventricular Hypertrophy: The Losartan Intervention For Endpoint Reduction in Hypertension (LIFE) Study, 739

Letters to the Editor
Does Acute Catastrophic Psychological Stress Disrupt Diurnal Cardiovascular Variability?: Letter to the editor, e22. Response to letter, e22
Electronic Sphygmomanometers: Are They a Source of Mercury in Hospitals?: Letter to the editor, e21. Response to letter, e21
How Important Is Pulse Pressure as a Predictor of Cardiovascular Risk?: Letter to the editor, e12. Response to letter, e13
John Swales: Letter to the editor, e18
Neurobiology of Birth Weight Influence on Blood Pressure Values and Variability in Children and Adolescents: Letter to the editor, e15. Response to letter, e15
Nitric Oxide and the Regulation of Arterial Elasticity: Right Idea, Wrong Vascular Bed?: Letter to the editor, e26. Response to letter, e26
No Net Effect of Angiotensin II on Blood Pressure?: Letter to the editor, e27. Response to Letter, e27
Questioning the Cardioprotective Effect of Bromocriptine Treatment: Letter to the editor, e16. Response to letter, e17
Renin-Angiotensin and Kallikrein-Kinin Systems Coordinately Modulate Angiogenesis: Letter, e29
Role of Aldosterone in the Pathogenesis of Hypertension: Letter to the editor, e14. Response to letter, e14
Techniques for Studying Arterial Elastic Properties: Letter to the editor, e20. Response to letter, e20

Leukocytes
Activation of Leukocytes During the Uteroplacental Passage in Preeclampsia, 155
Oxidative Stress in Leukocytes Is a Possible Link Between Blood Pressure, Blood Glucose, and C-Reacting Protein, 777

Life course
Socioeconomic Trajectories and Incident Hypertension in a Biracial Cohort of Young Adults, 772

Lifestyle
The Impact of JNC-VI Guidelines on Treatment Recommendations in the US Population, 897

Linkage mapping
Multi-Center Genetic Study of Hypertension: The Family Blood Pressure Program (FBPP), 3

α-Lipoic acid
Prevention of Hypertension, Insulin Resistance, and Oxidative Stress by α-Lipoic Acid, 303

Lipoproteins
Native LDL Induces Proliferation of Human Vascular Smooth Muscle Cells via Redox-Mediated Activation of ERK 1/2 Mitogen-Activated Protein Kinases, 645

Longitudinal
Growth of Left Ventricular Mass in African American and European American Youth, 943

Losartan
Downregulation of Neuronal Nitric Oxide Synthase and Interleukin-1β Mediates Angiotensin II-Dependent Stimulation of Sympathetic Nerve Activity, 519
Losartan Reduces Central and Peripheral Sympathetic Nerve Activity in a Rat Model of Neurogenic Hypertension, 1101
Stimulation of Cardiac Apoptosis in Essential Hypertension: Potential Role of Angiotensin II, 75

Lung
Emerging Excitatory Role of Cardiovascular Sympathetic Afferents in Pathophysiological Conditions, 63

Lysophosphatidylcholines
Lysophosphatidylcholine Inhibits Insulin-Induced Akt Activation Through Protein Kinase C-α in Vascular Smooth Muscle Cells, 508

Lysosomal processing
Albuminuria in Hypertension Is Linked to Altered Lysosomal Activity and TGF-β1 Expression, 281

M

M-1 cells
Serine Protease Activity in M-1 Cortical Collecting Duct Cells, 860

Macula densa
Epithelial COX-2 Expression Is Not Regulated By Nitric Oxide in Rodent Renal Cortex, 848
Expression and Cellular Localization of Classic NADPH Oxidase Subunits in the Spontaneously Hypertensive Rat Kidney, 269

Magnetic resonance imaging
Assessment of Left Ventricular Mass by Cardiovascular Magnetic Resonance, 750

Memorial
In Memoriam: H. Mitchell Perry, Jr, MD, 837

Menopause
Methoxyestradiols Mediate Estradiol-Induced Antimitogenesis in Human Aortic SMCs, 874
Methoxyestradiols Mediate the Antimitogenic Effects of Locally Applied Estradiol on Cardiac Fibroblast Growth, 412
Role of Methoxyestradiols in the Growth Inhibitory Effects of Estradiol on Human Glomerular Mesangial Cells, 418

Mesangium
Role of Methoxyestradiols in the Growth Inhibitory Effects of Estradiol on Human Glomerular Mesangial Cells, 418

Mesenteric arteries
Altered Nitric Oxide Synthase 3 Distribution in Mesenteric Arteries of Hypertensive Rats, 597
Bradykinin Enhances Sympathetic Neurotransmission in Rat Blood Vessels, 29

CB_1 Receptor Antagonist SR141716A Inhibits Ca^{2+}-Induced Relaxation in CB_1 Receptor-Deficient Mice, 251
Insulin Inhibits Acetylcholine Responses in Rat Isolated Mesenteric Arteries via a Non-Nitric Oxide Nonprostanoid Pathway, 35

Metabolism
Catecholamines Block 2-Hydroxyestradiol-Induced Antimitogenesis in Mesangial Cells, 854
Methoxyestradiols Mediate Estradiol-Induced Antimitogenesis in Human Aortic SMCs, 874
Methoxyestradiols Mediate the Antimitogenic Effects of Locally Applied Estradiol on Cardiac Fibroblast Growth, 412
Role of Methoxyestradiols in the Growth Inhibitory Effects of Estradiol on Human Glomerular Mesangial Cells, 418

Metalloprotease
Altered Regulation of Matrix Metalloproteinase-2 in Aortic Remodeling During Aging, 865

Methylglyoxal
Increased Methylglyoxal and Oxidative Stress in Hypertensive Rat Vascular Smooth Muscle Cells, 809

Mice
Conserved Synteny in Rat and Mouse for a Blood Pressure QTL on Human Chromosome 17, 1050
Effect of ACE Inhibitors and Angiotensin II Type 1 Receptor Antagonists on Endothelial NO Synthase Knockout Mice With Heart Failure, 375
Lower Blood Pressure in Floxed Angiotensinogen Mice After Adenoviral Delivery of Cre-Recombinase, 629
Selective Resistance to Central Neural Administration of Leptin in Agouti Obese Mice, 486
Targeted Proteomic Profiling of Renal Na^+ Transporter and Channel Abundances in Angiotensin II Type 1a Receptor Knockout Mice, 470

Microcirculation
A_{2B} Adenosine Receptors Stimulate Growth of Porcine and Rat Arterial Endothelial Cells, 530
Calcium-Dependent Synthesis of Prostacyclin in ATP-Stimulated Venous Endothelial Cells, 581
In Vivo Evidence for Antioxidant Potential of Estrogen in Microvessels of Female Spontaneously Hypertensive Rats, 405
Soluble Epoxide Hydrolase Inhibition Lowers Arterial Blood Pressure in Angiotensin II Hypertension, 690

Migration
Vascular Smooth Muscle Cell Activation by Glycated Albumin (Amadori Adducts), 22

Models, statistical
Development of Predictive Models for Long-Term Cardiovascular Risk Associated With Systolic and Diastolic Blood Pressure, 105
Validity and Reliability of Diastolic Pulse Contour Analysis (Windkessel Model) in Humans, 963

Mortality
Central Pulse Pressure and Mortality in End-Stage Renal Disease, 735
Prediction of Outcomes in Hypertensive Patients With Suspected Coronary Disease, 1113

Mouse
Effects of Dietary Sodium and Genetic Background on Angiotensinogen and Renin in Mouse, 1007

Muscle, smooth, vascular
Angiotensin II Type 2 Receptor Gene Transfer Downregulates Angiotensin II Type 1a Receptor in Vascular Smooth Muscle Cells, 1021
Endothelin-1-Induced Enhancement of Coronary Smooth Muscle Contraction via MAPK-Dependent and MAPK-Independent $[Ca^{2+}]_i$ Sensitization Pathways, 543
Functional Significance of Activation of Calcium/Calmodulin-Dependent Protein Kinase II in Angiotensin II-Induced Vascular Hyperplasia and Hypertension, 704
Gender Differences in Vascular Smooth Muscle Reactivity to Increases in Extracellular Sodium Salt, 425
Increased Methylglyoxal and Oxidative Stress in Hypertensive Rat Vascular Smooth Muscle Cells, 809
Inflammatory Cytokines Stimulate Adrenomedullin Expression Through Nitric Oxide-Dependent and -Independent Pathways, 161
Intracellular Angiotensin II Stimulates Voltage-Operated Ca^{2+} Channels in Arterial Myocytes, 474
Low-Salt Diet Enhances Vascular Reactivity and Ca^{2+} Entry in Pregnant Rats With Normal and Reduced Uterine Perfusion Pressure, 368
Lysophosphatidylcholine Inhibits Insulin-Induced Akt Activation Through Protein Kinase C-α in Vascular Smooth Muscle Cells, 508
Native LDL Induces Proliferation of Human Vascular Smooth Muscle Cells via Redox-Mediated Activation of ERK 1/2 Mitogen-Activated Protein Kinases, 645
Nitric Oxide Induces Dilation of Rat Aorta via Inhibition of Rho-Kinase Signaling, 438
Proprotein Convertase PC5 Regulation by PDGF-BB Involves PI3-Kinase/$p70^{s6}$-Kinase Activation in Vascular Smooth Muscle Cells, 399
Signaling Mechanisms of Heparin-Binding Epidermal Growth Factor-Like Growth Factor in Vascular Smooth Muscle Cells, 525
Vascular Smooth Muscle Cell Activation by Glycated Albumin (Amadori Adducts), 22

Muscles
Sympathetic Activation in Adipose Tissue and Skeletal Muscle of Hypertensive Rats, 656

Mutation
Dominant Negative Mutant of c-Jun Inhibits Cardiomyocyte Hypertrophy Induced by Endothelin 1 and Phenylephrine, 81
The T-786→C Mutation in Endothelial Nitric Oxide Synthase Is Associated With Hypertension, 919

Myocardial infarction
N-Terminal Pro-Brain Natriuretic Peptide After Myocardial Infarction: A Marker of Cardio-Renal Function, 99

Myocardial ischemia
Hypoxia Inducible Double Plasmid System for Myocardial Ischemia Gene Therapy, 695

Myocardium
Assessment of Left Ventricular Mass by Cardiovascular Magnetic Resonance, 750
Fibrosis, Matrix Metalloproteinases, and Inflammation in the Heart of DOCA-Salt Hypertensive Rats: Role of ET_A Receptors, 679

Myocytes
Abrogated Leptin-Induced Cardiac Contractile Response in Ventricular Myocytes Under Spontaneous Hypertension: Role of JAK/STAT Pathway, 69
Dominant Negative Mutant of c-Jun Inhibits Cardiomyocyte Hypertrophy Induced by Endothelin 1 and Phenylephrine, 81
Integrins Play a Critical Role in Mechanical Stress-Induced p38 MAPK Activation, 233
Prorenin-Induced Myocyte Proliferation: No Role for Intracellular Angiotensin II, 573
Trophic Effects of the Cyclooxygenase-2 Product Prostaglandin E_2 in Cardiac Myocytes, 382

Myofibroblasts
Stimulation of Collagen Production by Transforming Growth Factor-β_1 During Differentiation of Cardiac Fibroblasts to Myofibroblasts, 258

Myosin
Vigilant Vector: Heart-Specific Promoter in an Adeno-Associated Virus Vector for Cardioprotection, 651

N

Na^+-K^+-exchanging ATPase
Phorbol Diacetate Potentiates Na^+-K^+ ATPase Inhibition by a Putative Endogenous Ligand, Marinobufagenin, 298

Natriuresis
Combined Endopeptidase Inhibition and Adrenomedullin in Sheep With Experimental Heart Failure, 93
Interaction of O_2^- and NO in the Thick Ascending Limb, 591

Natriuretic peptides
Aldosterone Is Produced From Ventricles in Patients With Essential Hypertension, 958
Combined Endopeptidase Inhibition and Adrenomeduilin in Sheep With Experimental Heart Failure, 93
In Search of Cardiovascular Candidate Genes: Interactions Between Phenotypes and Genotypes, 332
N-Terminal Pro-Brain Natriuretic Peptide After Myocardial Infarction: A Marker of Cardio-Renal Function, 99

Plasma ProANP$_{1-30}$ Reflects Salt Sensitivity in Subjects With Heredity for Hypertension, 996
Posttranscriptional Control of BNP Gene Expression in Angiotensin II-Induced Hypertension, 803
Nervous system
Chronotropic Action of Angiotensin II in Neurons via Protein Kinase C and CaMKII, 562
Nervous system, sympathetic
Chronic Cardiovascular and Renal Actions of Leptin: Role of Adrenergic Activity, 496
Neuropeptides
Chronotropic Action of Angiotensin II in Neurons via Protein Kinase C and CaMKII, 562
Substance P in Subtotal Nephrectomy-Salt Hypertension, 389
Neuroregulators
Obligatory Role of Protein Kinase Cβ and MARCKS in Vesicular Trafficking in Living Neurons, 567
Nitric oxide
L-Arginine Augments Cardiac Vagal Control in Healthy Human Subjects, 51
Abrogated Leptin-Induced Cardiac Contractile Response in Ventricular Myocytes Under Spontaneous Hypertension: Role of JAK/STAT Pathway, 69
Angiotensin 1-9 and 1-7 Release in Human Heart: Role of Cathepsin A, 976
Angiotensin II Type 2 Receptor Gene Transfer Downregulates Angiotensin II Type 1a Receptor in Vascular Smooth Muscle Cells, 1021
Cardiac and Renal Effects of Growth Hormone in Volume Overload-Induced Heart Failure: Role of NO, 57
Cardiovascular Effects of Overexpression of Endothelial Nitric Oxide Synthase in the Rostral Ventrolateral Medulla in Stroke-Prone Spontaneously Hypertensive Rats, 264
Cationic Amino Acid Transport in the Renal Medulla and Blood Pressure Regulation, 287
Downregulation of Neuronal Nitric Oxide Synthase and Interleukin-1β Mediates Angiotensin II-Dependent Stimulation of Sympathetic Nerve Activity, 519
Effect of ACE Inhibitors and Angiotensin II Type 1 Receptor Antagonists on Endothelial NO Synthase Knockout Mice With Heart Failure, 375
Endothelial Nitric Oxide Synthase Lies Downstream From Angiotensin II-Induced Angiogenesis in Ischemic Hindlimb, 830
Excess Norepinephrine Impairs Both Endothelium-Dependent and -Independent Vasodilation in Patients With Pheochromocytoma, 513
Expression and Cellular Localization of Classic NADPH Oxidase Subunits in the Spontaneously Hypertensive Rat Kidney, 269
Gene Transfer of cGMP-Dependent Protein Kinase I Enhances the Antihypertrophic Effects of Nitric Oxide in Cardiomyocytes, 87
Important Role of Rho-kinase in the Pathogenesis of Cardiovascular Inflammation and Remodeling Induced by Long-Term Blockade of Nitric Oxide Synthesis in Rats, 245
Increased Dietary Salt Activates Rat Aortic Endothelium, 239
Inflammatory Cytokines Stimulate Adrenomedullin Expression Through Nitric Oxide-Dependent and -Independent Pathways, 161
Insulin Inhibits Acetylcholine Responses in Rat Isolated Mesenteric Arteries via a Non-Nitric Oxide Nonprostanoid Pathway, 35
Interaction of O_2^- and NO in the Thick Ascending Limb, 591
Mechanism by Which Superoxide Potentiates Tubuloglomerular Feedback, 624
Neuronal NO Mediates Cerebral Vasodilator Responses to K^+ in Hypertensive Rats, 880
Nitric Oxide Induces Dilation of Rat Aorta via Inhibition of Rho-Kinase Signaling, 438
Nitric Oxide Modulates Superoxide Release and Peroxynitrite Formation in Human Blood Vessels, 1088
Nitric Oxide Modulation of Neurally Induced Proximal Tubular Fluid Reabsorption in the Rat, 790
Nitric Oxide Produced by THAL Nitric Oxide Synthase Inhibits TGF, 662
Nitric Oxide, Anti-Inflammatory Drugs on Renal Prostaglandins and Cyclooxygenase-2, 785
Renal Hemodynamic Control by Endothelin and Nitric Oxide Under Angiotensin II Blockade in Man, 715
The T-786→C Mutation in Endothelial Nitric Oxide Synthase Is Associated With Hypertension, 919
Vasodilator Action of Angiotensin-(1-7) on Isolated Rabbit Afferent Arterioles, 799
Vasopressin Increases Intracellular NO Concentration via Ca^{2+} Signaling in Inner Medullary Collecting Duct, 465
Vessel-Specific Stimulation of Protein Synthesis by Nitric Oxide Synthase Inhibition: Role of Extracellular Signal-Regulated Kinases 1/2, 16
Nitric oxide synthase
Altered Nitric Oxide Synthase 3 Distribution in Mesenteric Arteries of Hypertensive Rats, 597
Cardiac and Renal Effects of Growth Hormone in Volume Overload-Induced Heart Failure: Role of NO, 57
Effect of ACE Inhibitors and Angiotensin II Type 1 Receptor Antagonists on Endothelial NO Synthase Knockout Mice With Heart Failure, 375
Enhanced Nitric Oxide Inactivation and Protein Nitration by Reactive Oxygen Species in Renal Insufficiency, 135
Epithelial COX-2 Expression Is Not Regulated By Nitric Oxide in Rodent Renal Cortex, 848
Inducible Nitric Oxide Synthase Inhibition Attenuates Renal Hemodynamics During Pregnancy, 586
Lacidipine Inhibits Adhesion Molecule and Oxidase Expression Independent of Blood Pressure Reduction in Angiotensin-Induced Vascular Injury, 685
Losartan Reduces Central and Peripheral Sympathetic Nerve Activity in a Rat Model of Neurogenic Hypertension, 1101
Mechanism by Which Superoxide Potentiates Tubuloglomerular Feedback, 624
Perindopril Alters Vascular Angiotensin-Converting Enzyme, AT_1 Receptor, and Nitric Oxide Synthase Expression in Patients With Coronary Heart Disease, 634
The T-786→C Mutation in Endothelial Nitric Oxide Synthase Is Associated With Hypertension, 919
Vessel-Specific Stimulation of Protein Synthesis by Nitric Oxide Synthase Inhibition: Role of Extracellular Signal-Regulated Kinases 1/2, 16
Norepinephrine
Excess Norepinephrine Impairs Both Endothelium-Dependent and -Independent Vasodilation in Patients With Pheochromocytoma, 513
Obligatory Role of Protein Kinase Cβ and MARCKS in Vesicular Trafficking in Living Neurons, 567
Sympathetic Activation in Adipose Tissue and Skeletal Muscle of Hypertensive Rats, 656
Nutrition

O

Obesity
Chronic Cardiovascular and Renal Actions of Leptin: Role of Adrenergic Activity, 496
Prevalence of Hypertension in Hispanic and non-Hispanic White Populations, 203
Selective Resistance to Central Neural Administration of Leptin in Agouti Obese Mice, 486
Socioeconomic Inequalities in Hypertension Prevalence and Care: The IHPAF Study, 1119
Oligonucleotides, antisense
Obligatory Role of Protein Kinase Cβ and MARCKS in Vesicular Trafficking in Living Neurons, 567
Ouabain
Brain Amiloride-Sensitive Phe-Met-Arg-Phe-NH_2-Gated Na^+ Channels and Na^+-Induced Sympathoexcitation and Hypertension, 557
Novel Receptors for Ouabain: Studies in Adrenocortical Cells and Membranes, 536
Phorbol Diacetate Potentiates Na^+-K^+ ATPase Inhibition by a Putative Endogenous Ligand, Marinobufagenin, 298

Oxidative stress
Angiotensin II and Catecholamines Increase Plasma Levels of 8-Epi-Prostaglandin $F_{2\alpha}$ With Different Pressor Dependencies in Rats, 149
Enhanced Nitric Oxide Inactivation and Protein Nitration by Reactive Oxygen Species in Renal Insufficiency, 135
Expression and Cellular Localization of Classic NADPH Oxidase Subunits in the Spontaneously Hypertensive Rat Kidney, 269
Increased Methylglyoxal and Oxidative Stress in Hypertensive Rat Vascular Smooth Muscle Cells, 809
Nitric Oxide Modulates Superoxide Release and Peroxynitrite Formation in Human Blood Vessels, 1088
Oxidative Stress in Leukocytes Is a Possible Link Between Blood Pressure, Blood Glucose, and C-Reacting Protein, 777
Pressure Promotes Angiotensin II-Mediated Migration of Human Coronary Smooth Muscle Cells Through Increase in Oxidative Stress, 433
Prevention of Hypertension, Insulin Resistance, and Oxidative Stress by α-Lipoic Acid, 303
Oxygen
Enhanced Nitric Oxide Inactivation and Protein Nitration by Reactive Oxygen Species in Renal Insufficiency, 135
Expression and Cellular Localization of Classic NADPH Oxidase Subunits in the Spontaneously Hypertensive Rat Kidney, 269
Increased Renal Medullary Oxidative Stress Produces Hypertension, 667

P

Peptides
Angiotensin 1-9 and 1-7 Release in Human Heart: Role of Cathepsin A, 976
Dipeptidyl Peptidase IV Activity in Patients With ACE-Inhibitor-Associated Angioedema, 460
Ultrasonic Backscatter and Serum Marker of Cardiac Fibrosis in Hypertensives, 923
Phenylephrine
Preproendothelin-1 Gene Polymorphism Is Related to a Change in Vascular Reactivity in the Human Mammary Artery In Vitro, 209
Pheochromocytoma
Excess Norepinephrine Impairs Both Endothelium-Dependent and -Independent Vasodilation in Patients With Pheochromocytoma, 513
Phospholipase
Phospholipase D Contributes to Transmural Pressure Control of Prorenin Processing in Juxtaglomerular Cell, 363
Platelet-derived growth factor
Src Autophosphorylation is an Early Event in Pressure-Mediated Signaling Pathways in Isolated Resistance Arteries, 502
Plethysmography
Effect of Endothelin Blockade on Basal and Stimulated Forearm Blood Flow in Patients With Essential Hypertension, 821
Smoking Impairs Bradykinin-Stimulated t-PA Release, 767
Validity and Reliability of Diastolic Pulse Contour Analysis (Windkessel Model) in Humans, 963
Polymorphism

Receptors, angiotensin
Chronotropic Action of Angiotensin II in Neurons via Protein Kinase C and CaMKII, 562
Endothelial Nitric Oxide Synthase Lies Downstream From Angiotensin II-Induced Angiogenesis in Ischemic Hindlimb, 830
Prorenin-Induced Myocyte Proliferation: No Role for Intracellular Angiotensin II, 573
Regulation of Intrarenal Angiotensin II in Hypertension, 316
Vasodilator Action of Angiotensin-(1-7) on Isolated Rabbit Afferent Arterioles, 799

Receptors, angiotensin II
Angiotensin II Type 2 Receptor Counter-Regulates Type 1 Receptor in Catecholamine Synthesis in Cultured Porcine Adrenal Medullary Chromaffin Cells, 142
Angiotensin II Type 2 Receptor Gene Transfer Downregulates Angiotensin II Type 1a Receptor in Vascular Smooth Muscle Cells, 1021
Effect of ACE Inhibitors and Angiotensin II Type 1 Receptor Antagonists on Endothelial NO Synthase Knockout Mice With Heart Failure, 375
Estrogen Activates Phosphatases and Antagonizes Growth-Promoting Effect of Angiotensin II, 41
Intracellular Angiotensin II Stimulates Voltage-Operated Ca^{2+} Channels in Arterial Myocytes, 474
Targeted Proteomic Profiling of Renal Na^+ Transporter and Channel Abundances in Angiotensin II Type 1a Receptor Knockout Mice, 470

Receptors, bradykinin
Angiotensin 1-9 and 1-7 Release in Human Heart: Role of Cathepsin A, 976
Neprilysin Inhibitors Potentiate Effects of Bradykinin on B2 Receptor, 619

Receptors, endothelin
Function and Regulation of Endothelin-1 and Its Receptors in Salt Sensitive Hypertension Induced by Sensory Nerve Degeneration, 673
Renal Hemodynamic Control by Endothelin and Nitric Oxide Under Angiotensin II Blockade in Man, 715

Receptors, serotonin
Upregulation of Arterial Serotonin 1B and 2B Receptors in Deoxycorticosterone Acetate-Salt Hypertension, 394

Reflex
Emerging Excitatory Role of Cardiovascular Sympathetic Afferents in Pathophysiological Conditions, 63

Relaxation
CB_1 Receptor Antagonist SR141716A Inhibits Ca^{2+}-Induced Relaxation in CB_1 Receptor-Deficient Mice, 251
Expression of Human Angiotensinogen-Renin in Rat: Effects on Transcription and Heart Function, 219

Remodeling
A_{2B} Adenosine Receptors Stimulate Growth of Porcine and Rat Arterial Endothelial Cells, 530
Important Role of Rho-kinase in the Pathogenesis of Cardiovascular Inflammation and Remodeling Induced by Long-Term Blockade of Nitric Oxide Synthesis in Rats, 245
Methoxyestradiols Mediate Estradiol-Induced Antimitogenesis in Human Aortic SMCs, 874
Src Autophosphorylation is an Early Event in Pressure-Mediated Signaling Pathways in Isolated Resistance Arteries, 502

Renal blood flow
Cationic Amino Acid Transport in the Renal Medulla and Blood Pressure Regulation, 287
Increased Renal Medullary Oxidative Stress Produces Hypertension, 667
Soluble Epoxide Hydrolase Inhibition Lowers Arterial Blood Pressure in Angiotensin II Hypertension, 690

Renal circulation
Reduced Reactivity of Renal Microvessels to Pressure and Angiotensin II in Fawn-Hooded Rats, 111

Renal disease
Catecholamines Block 2-Hydroxyestradiol-Induced Antimitogenesis in Mesangial Cells, 854
Central Pulse Pressure and Mortality in End-Stage Renal Disease, 735
Implications of Hyperhomocysteinemia in Glomerular Sclerosis in Hypertension, 443

In Vivo *klotho* Gene Transfer Ameliorates Angiotensin II-Induced Renal Damage, 838
N-Terminal Pro-Brain Natriuretic Peptide After Myocardial Infarction: A Marker of Cardio-Renal Function, 99
Renal Resistance Index and Progression of Renal Disease, 699
Role of Methoxyestradiols in the Growth Inhibitory Effects of Estradiol on Human Glomerular Mesangial Cells, 418
Substance P in Subtotal Nephrectomy-Salt Hypertension, 389
Urinary Protein and Essential Hypertension in Black and in White People, 1064

Renal hemodynamics
Nitric Oxide Blockade Enhances Renal Responses to Superoxide Dismutase Inhibition in Dogs, 293

Renal injury
Lipocalin-Type Prostaglandin D Synthase in Essential Hypertension, 449

Renal nerves
Nitric Oxide Modulation of Neurally Induced Proximal Tubular Fluid Reabsorption in the Rat, 790

Renal regional blood flow
Nitric Oxide Blockade Enhances Renal Responses to Superoxide Dismutase Inhibition in Dogs, 293

Renin
Diagnostic Value of the Post-Captopril Test in Primary Aldosteronism, 935
Effects of Dietary Sodium and Genetic Background on Angiotensinogen and Renin in Mouse, 1007
Epithelial COX-2 Expression Is Not Regulated By Nitric Oxide in Rodent Renal Cortex, 848
Familial Aggregation of Low-Renin Hypertension, 914
Fetal Uninephrectomy Leads to Postnatal Hypertension and Compromised Renal Function, 1071
Prorenin-Induced Myocyte Proliferation: No Role for Intracellular Angiotensin II, 573

Renin-angiotensin system
Angiotensin II Suppression in Humans by the Orally Active Renin Inhibitor Aliskiren (SPP100): Comparison With Enalapril, 189
Blood Pressure and NaCl-Sensitive Hypertension Are Influenced by Angiotensin-Converting Enzyme Gene Expression in Transgenic Mice, 214
Blood Pressure-Independent Attenuation of Cardiac Hypertrophy by AT_1R-AS Gene Therapy, 969
Brain Amiloride-Sensitive Phe-Met-Arg-Phe-NH_2-Gated Na^+ Channels and Na^+-Induced Sympathoexcitation and Hypertension, 557
Genomewide Linkage Scan of Resting Blood Pressure: HERITAGE Family Study, 1037
Lower Blood Pressure in Floxed Angiotensinogen Mice After Adenoviral Delivery of Cre-Recombinase, 629
Phospholipase D Contributes to Transmural Pressure Control of Prorenin Processing in Juxtaglomerular Cell, 363
Regulation of Intrarenal Angiotensin II in Hypertension, 316
Renoprotective Effect of Chronic Adrenomedullin Infusion in Dahl Salt-Sensitive Rats, 1077
Selective Gene Transfer to Key Cardiovascular Regions of the Brain: Comparison of Two Viral Vector Systems, 603

Resistance
Serotonin-Induced Contraction in Mesenteric Resistance Arteries: Signaling and Changes in Deoxycorticosterone Acetate-Salt Hypertension, 825

Rho-kinase
Important Role of Rho-kinase in the Pathogenesis of Cardiovascular Inflammation and Remodeling Induced by Long-Term Blockade of Nitric Oxide Synthesis in Rats, 245

Risk factors
ADD1 460W Allele Associated With Cardiovascular Disease in Hypertensive Individuals, 1053
Ambulatory Blood Pressure and Left Ventricular Mass Index in Hypertensive Children, 903
Association Between Pulse Pressure and C-Reactive Protein Among Apparently Healthy US Adults, 197
Blood Pressure Response to Heart Rate During Exercise Test and Risk of Future Hypertension, 761
Cardiovascular Effects of Nasal and Transdermal Nicotine and Cigarette Smoking, 1107
Hemodynamic and Autonomic Adjustments to Real Life Stress Conditions in Humans, 184
Relationship Between Muscle Sympathetic Nerve Activity and Diurnal Blood Pressure Profile, 168
Renal Resistance Index and Progression of Renal Disease, 699

RNA
Substance P in Subtotal Nephrectomy-Salt Hypertension, 389

S

SB 209670
Effect of Endothelin Blockade on Basal and Stimulated Forearm Blood Flow in Patients With Essential Hypertension, 821

Serine protease
Serine Protease Activity in M-1 Cortical Collecting Duct Cells, 860

Serotonin
Upregulation of Arterial Serotonin 1B and 2B Receptors in Deoxycorticosterone Acetate-Salt Hypertension, 394

Sheep
Fetal Uninephrectomy Leads to Postnatal Hypertension and Compromised Renal Function, 1071

Sibling pairs
Multi-Center Genetic Study of Hypertension: The Family Blood Pressure Program (FBPP), 3

Siblings
Familial Aggregation of Low-Renin Hypertension, 914

Signal transduction
Abrogated Leptin-Induced Cardiac Contractile Response in Ventricular Myocytes Under Spontaneous Hypertension: Role of JAK/STAT Pathway, 69
Estrogen Activates Phosphatases and Antagonizes Growth-Promoting Effect of Angiotensin II, 41
Obligatory Role of Protein Kinase Cβ and MARCKS in Vesicular Trafficking in Living Neurons, 567
Signaling Mechanisms of Heparin-Binding Epidermal Growth Factor-Like Growth Factor in Vascular Smooth Muscle Cells, 525
Src Autophosphorylation is an Early Event in Pressure-Mediated Signaling Pathways in Isolated Resistance Arteries, 502
Vasopressin Increases Intracellular NO Concentration via Ca^{2+} Signaling in Inner Medullary Collecting Duct, 465

Smoking
Cardiovascular Effects of Nasal and Transdermal Nicotine and Cigarette Smoking, 1107
Smoking Impairs Bradykinin-Stimulated t-PA Release, 767

Socioeconomic factors
Growth of Left Ventricular Mass in African American and European American Youth, 943
Socioeconomic Inequalities in Hypertension Prevalence and Care: The IHPAF Study, 1119
Socioeconomic Trajectories and Incident Hypertension in a Biracial Cohort of Young Adults, 772

Sodium
Blood Pressure and NaCl-Sensitive Hypertension Are Influenced by Angiotensin-Converting Enzyme Gene Expression in Transgenic Mice, 214
Brain Amiloride-Sensitive Phe-Met-Arg-Phe-NH_2-Gated Na^+ Channels and Na^+-Induced Sympathoexcitation and Hypertension, 557
Cardiac Damage Prevention by Eplerenone: Comparison With Low Sodium Diet or Potassium Loading, 614
Effects of Dietary Sodium and Genetic Background on Angiotensinogen and Renin in Mouse, 1007
Familial Aggregation of Low-Renin Hypertension, 914
Fetal Uninephrectomy Leads to Postnatal Hypertension and Compromised Renal Function, 1071
Gender Differences in Vascular Smooth Muscle Reactivity to Increases in Extracellular Sodium Salt, 425
Impaired Stress-Induced Pressure Natriuresis Is Related to Left Ventricle Structure in Blacks, 844
Nitric Oxide Modulation of Neurally Induced Proximal Tubular Fluid Reabsorption in the Rat, 790
Targeted Proteomic Profiling of Renal Na^+ Transporter and Channel Abundances in Angiotensin II Type 1a Receptor Knockout Mice, 470

Sodium channels
Genomewide Linkage Scan of Resting Blood Pressure: HERITAGE Family Study, 1037
Serine Protease Activity in M-1 Cortical Collecting Duct Cells, 860
Sodium excretion
Nitric Oxide Blockade Enhances Renal Responses to Superoxide Dismutase Inhibition in Dogs, 293
Sodium pump
Novel Receptors for Ouabain: Studies in Adrenocortical Cells and Membranes, 536
α-Adducin 460Trp Allele Is Associated With Erythrocyte Na Transport Rate in North Sardinian Primary Hypertensives, 357
Sodium, dietary
Low-Renin Hypertension, Altered Sodium Homeostasis, and an α-Adducin Polymorphism, 191
Plasma $ProANP_{1-30}$ Reflects Salt Sensitivity in Subjects With Heredity for Hypertension, 996
Stress
Impaired Stress-Induced Pressure Natriuresis Is Related to Left Ventricle Structure in Blacks, 844
Prediction of Outcomes in Hypertensive Patients With Suspected Coronary Disease, 1113
Stress hormones
Hemodynamic and Autonomic Adjustments to Real Life Stress Conditions in Humans, 184
Stress, mechanical
Integrins Play a Critical Role in Mechanical Stress-Induced p38 MAPK Activation, 233
Stroke
Development of Predictive Models for Long-Term Cardiovascular Risk Associated With Systolic and Diastolic Blood Pressure, 105
Gene Transfer of Hepatocyte Growth Factor to Subarachnoid Space in Cerebral Hypoperfusion Model, 1028
Renin-Angiotensin System Genetic Polymorphisms and Cerebral White Matter Lesions in Essential Hypertension, 343
Sympathetic nervous system
Bradykinin Enhances Sympathetic Neurotransmission in Rat Blood Vessels, 29
Brain Amiloride-Sensitive Phe-Met-Arg-Phe-NH_2-Gated Na^+ Channels and Na^+-Induced Sympathoexcitation and Hypertension, 557
Cardiovascular Effects of Overexpression of Endothelial Nitric Oxide Synthase in the Rostral Ventrolateral Medulla in Stroke-Prone Spontaneously Hypertensive Rats, 264
Catecholamines Block 2-Hydroxyestradiol-Induced Antimitogenesis in Mesangial Cells, 854
Downregulation of Neuronal Nitric Oxide Synthase and Interleukin-1β Mediates Angiotensin II-Dependent Stimulation of Sympathetic Nerve Activity, 519
Effects of Chronic Calcium Channel Blockade on Sympathetic Nerve Activity in Hypertension, 892
Inhibition of the Hypothalamic Paraventricular Nucleus in Spontaneously Hypertensive Rats Dramatically Reduces Sympathetic Vasomotor Tone, 275
Losartan Reduces Central and Peripheral Sympathetic Nerve Activity in a Rat Model of Neurogenic Hypertension, 1101
Selective Resistance to Central Neural Administration of Leptin in Agouti Obese Mice, 486
Sympathetic Response to Ventricular Extrasystolic Beats in Hypertension and Heart Failure, 886

T

T-PA release
Smoking Impairs Bradykinin-Stimulated t-PA Release, 767
Tachycardia
Heart Rate and Blood Pressure Quantitative Trait Loci for the Airpuff Startle Reaction, 348
Heart Rate: An Important Confounder of Pulse Wave Velocity Assessment, 1083
Increased Sympathetic Activation in Idiopathic Orthostatic Intolerance: Role of Systemic Adrenoreceptor Sensitivity, 173
Tonin
Tonin and Kallikrein in the Brain of Transgenic Rat Line Expressing Human Tissue Kallikrein, 229
Transcription
Hypoxia Inducible Double Plasmid System for Myocardial Ischemia Gene Therapy, 695
Lacidipine Inhibits Adhesion Molecule and Oxidase Expression Independent of Blood Pressure Reduction in Angiotensin-Induced Vascular Injury, 685
Posttranscriptional Control of BNP Gene Expression in Angiotensin II-Induced Hypertension, 803
Transforming growth factors
Albuminuria in Hypertension Is Linked to Altered Lysosomal Activity and TGF-β1 Expression, 281
Increased Dietary Salt Activates Rat Aortic Endothelium, 239
Renoprotective Effect of Chronic Adrenomedullin Infusion in Dahl Salt-Sensitive Rats, 1077
Stimulation of Collagen Production by Transforming Growth Factor-β_1 During Differentiation of Cardiac Fibroblasts to Myofibroblasts, 258
Treatment
The Impact of JNC-VI Guidelines on Treatment Recommendations in the US Population, 897
Treatment response
Associations Between Birth Weight and Antihypertensive Medication in Black and White Medicaid Recipients, 179
Tumor necrosis factor
Effect of TNF-α-Converting Enzyme Inhibitor on Insulin Resistance in Fructose-Fed Rats, 578
Tyrosine hydroxylase
Angiotensin II Type 2 Receptor Counter-Regulates Type 1 Receptor in Catecholamine Synthesis in Cultured Porcine Adrenal Medullary Chromaffin Cells, 142

U

Ultrasonography
Renal Resistance Index and Progression of Renal Disease, 699
Ultrasonic Backscatter and Serum Marker of Cardiac Fibrosis in Hypertensives, 923
Uremia
Enhanced Nitric Oxide Inactivation and Protein Nitration by Reactive Oxygen Species in Renal Insufficiency, 135
Urine
Effects of Dietary Sodium and Genetic Background on Angiotensinogen and Renin in Mouse, 1007

V

Vasa vasorum
Coexistence of Hypercholesterolemia and Hypertension Impairs Adventitial Vascularization, 455
Hypoxia-Inducible Factor-1α/Vascular Endothelial Growth Factor Pathway for Adventitial Vasa Vasorum Formation in Hypertensive Rat Aorta, 46
Vascular diseases
A_{2B} Adenosine Receptors Stimulate Growth of Porcine and Rat Arterial Endothelial Cells, 530
Nitric Oxide Modulates Superoxide Release and Peroxynitrite Formation in Human Blood Vessels, 1088
Vascular resistance
Renal Resistance Index and Progression of Renal Disease, 699
Vascular smooth muscle cells
Cytochrome P450-Dependent Eicosapentaenoic Acid Metabolites Are Novel BK Channel Activators, 609
Vasculature
A_{2B} Adenosine Receptors Stimulate Growth of Porcine and Rat Arterial Endothelial Cells, 530
Estrogen Activates Phosphatases and Antagonizes Growth-Promoting Effect of Angiotensin II, 41
Vasoconstriction
Phorbol Diacetate Potentiates Na^+-K^+ ATPase Inhibition by a Putative Endogenous Ligand, Marinobufagenin, 298
Reduced Reactivity of Renal Microvessels to Pressure and Angiotensin II in Fawn-Hooded Rats, 111
Vasodilatation
Effects of Mild Exercise on Insulin Sensitivity in Hypertensive Subjects, 989

Vasodilation
KDR (VEGF Receptor 2) Is the Major Mediator for the Hypotensive Effect of VEGF, 1095
Nitric Oxide Induces Dilation of Rat Aorta via Inhibition of Rho-Kinase Signaling, 438
Vasopressins
Vasopressin Increases Intracellular NO Concentration via Ca^{2+} Signaling in Inner Medullary Collecting Duct, 465
VEGF
Hypoxia-Inducible Factor-1α/Vascular Endothelial Growth Factor Pathway for Adventitial Vasa Vasorum Formation in Hypertensive Rat Aorta, 46
Veins
Calcium-Dependent Synthesis of Prostacyclin in ATP-Stimulated Venous Endothelial Cells, 581
Ventricular function, left
Blood Pressure Variability and Organ Damage in a General Population: Results from the PAMELA Study, 710
Bradykinin Improves Left Ventricular Diastolic Function Under Long-Term Angiotensin-Converting Enzyme Inhibition in Heart Failure, 952
Growth of Left Ventricular Mass in African American and European American Youth, 943

W

Water-electrolyte balance
Low-Renin Hypertension, Altered Sodium Homeostasis, and an α-Adducin Polymorphism, 191
White matter lesions
Renin-Angiotensin System Genetic Polymorphisms and Cerebral White Matter Lesions in Essential Hypertension, 343

Y

Young adults
Socioeconomic Trajectories and Incident Hypertension in a Biracial Cohort of Young Adults, 772
